

May 6, 2008

To: Federal Communications Commission  
Authorization and Evaluation Division  
From: Smart Structures Inc. (FRN #0017521220)

Subject: Confidentiality Request regarding application for certification of FCC ID:  
V9CSP-X01D2

Pursuant to Sections 0.457 and 0.459 of the Commission's Rules, we hereby request confidential treatment of information accompanying this application as outlined below:

**Exhibit Type**

All photos of internal circuit boards

**File Name**

V9CSP-X01D2, Internal  
Photographs

Smart Structures is the only company in the world embedding active electronics in concrete for the driven concrete pile market. Significant time and money has been spent on the part of SSI as the product environmental/application rigors are extreme. We view the electronics design to be highly proprietary and partially responsible to the products success. We have patents pending on the technology, and choose to have the electronics (components, packaging, and layout) remain a trade secret.

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these materials may be harmful to the applicant and provide unjustified benefits to its competitors.

The applicant understands that pursuant to Section 0.457 of the Rules, disclosure of this application and all accompanying documentation will not be made before the date of the Grant for this application.

Any questions should be directed to myself, Richard Hecht, Vice President, at 978-851-0459.

Sincerely,

Richard Hecht  
Vice President  
Smart Structures Inc.
